

# SEGI

## **BIOGRAPHY**

The band (Segi) consisted of 3 original members with Shidi on guitar and vocal, Ali on drum and Mael on Bass. Segi is primarily based in Ampang, Selangor for the time being for all their recording and music related work.

The band is not strict to playing a single genre of music; thus the release of it's first demo (single) titled Adinda that reprises the sound of retro pop-rock. At the same time, an upcoming release; titled Broken (English Song) will be much more modern and heavier sounding tune. Segi has no plan to release an EP or Album for the time being as they are working to promote their music by stages and grow in the industry slowly. At the same time, they are taking advantage on the new digital age of music where it's no more relevant to wait for a year or two in order to release an album.
